# COMMUNITY HOT TOPICS

These were the key talking points for each of the 5 communities forming part of the 2025 Connecting SAP Fusion event. Each year, Eventful people conduct thorough research to determine the key challenges and areas within the SAP communities that we serve. This includes hosting a series of round table discussions with a hand-selected group of senior SAP professionals so that we can understand the things that are holding their teams back, and the areas that they are needing to master to embrace the next step in their company's SAP journey.

These topics form the blueprint for our conference agenda, ensuring that the content presented meets the needs of the delegates attending. Our 2026 Hot Topics will be release towards the end of the year.
